

NEWS RELEASE

FERAMAX[®] NAMED #1 BY CANADIAN PHYSICIANS AND PHARMACISTS FOR THIRD CONSECUTIVE YEAR

FOR IMMEDIATE RELEASE

MAY 1, 2018

TORONTO, ONTARIO (May 1, 2018) BioSyent Inc. ("BioSyent", TSX Venture: RX) is pleased to announce that for the third consecutive year, FeraMAX[®] has been named the #1 recommended iron supplement brand in a national survey of Canadian physicians and pharmacists.

The 2018 OTC Recommendations Survey was conducted by *RK Insights* and the following publications within the *EnsembleIQ Healthcare Group: Pharmacy Practice + Business, The Medical Post, Profession Santé, CanadianHealthcareNetwork.ca, and ProfessionSanté.ca*. This annual survey was conducted online between August 2017 and October 2017 with Canadian physicians and pharmacists. In total, 1,649 surveys were completed by pharmacists and 955 surveys were completed by physicians. FeraMAX[®] was named by both pharmacists and physicians surveyed as the most recommended iron supplement brand to Canadian patients.

"We are very pleased with the 2018 survey results and the #1 recommendation for our FeraMAX[®] brand for the third consecutive year," commented Mr. René Goehrum, President and CEO of BioSyent. "We are thankful that Canadian healthcare providers have recognized the benefits of FeraMAX[®] in the treatment and prevention of iron deficiency anaemia and continue to recommend FeraMAX[®] to their patients."

About FeraMAX[®]

FeraMAX[®] 150 is an oral iron supplement indicated for the prevention and treatment of iron deficiency anaemia. This non-ionic polysaccharide-iron complex formulation reduces adverse gastrointestinal side effects commonly experienced with other iron formulations. A Vegan Certified formulation of FeraMAX[®] 150 is also available in Canadian pharmacies and provides an iron therapy option for vegans, vegetarians, and patients with other dietary restrictions. FeraMAX[®] Powder, based upon the same innovative non-ionic polysaccharide-iron complex technology found in FeraMAX[®] 150, is available in a pleasant tasting, dissolvable powder for pediatric patients.
